

Take steps to a greener future...

AXA Climate School is an online learning experience explaining climate change, and actions that can be taken now to reduce its impact.

Eight free training modules:

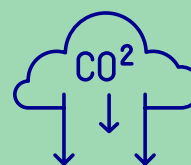

The great climate system

The overexploitation of natural resources

Water Crises

The low-carbon transition

Acting on your company's carbon footprint

Acting on your own footprint

Adapting your organisation to a changing climate

Taking action for biodiversity as a company

Register now and start learning

Each bite-size module features short engaging videos, with quizzes to check understanding.

Registration to the AXA Climate School is quick and simple.

Start learning now and take steps to a greener future.
