

Minifleet Choice

AXA's Minifleet Choice policy is suitable for businesses based in the UK (excluding Northern Ireland) who own or lease 3 to 15 vehicles (up to 20 for mid-term adjustments and renewal). It is not suitable for family fleets or multi-car households.

Its flexibility also helps you to write more business. With a choice of covers and driving options, you can tailor the product to protect UK (excluding Northern Ireland) based sole traders, partnerships and companies with 3-15 vehicles under one policy and up to 20 vehicles for mid-term adjustments and renewal.
